**NEWSLETTER QUARTER 3 & 4, 2023**

**PRESS RELEASE**

**NEW PRODUCT LAUNCH!**

**SOLUTION-SOFT LAUNCHES TIME MACHINE<sup>®</sup> CONTAINER  
FOR AZURE KUBERNETES SERVICE (AKS)**

**Azure Kubernetes Service (AKS)**

We recently announced the launch of the Time Machine Container Solution for Azure Kubernetes Service (AKS). This groundbreaking solution allows enterprises to incorporate time travel capabilities into their containerized environments, transforming how they conduct application testing and deployment processes.

The Time Machine Container Solution for Azure Kubernetes Service (AKS) provides a powerful and efficient approach to temporal testing of applications, offering significant benefits such as resource optimization and cost reduction. By harnessing the power of Time Machine, organizations can ensure the successful completion of large-scale software projects within budget and on schedule.

## PRESS RELEASE

### **TIME MACHINE PAYG VERSION NOW AVAILABLE IN ALL 15 COUNTRIES ON ORACLE CLOUD MARKETPLACE**

**Time Machine PAYG will be priced in Local Currencies!**

Solution-Soft is thrilled to announce a major expansion in the availability of its flagship product, Time Machine. The Pay-As-You-Go (PAYG) version of Time Machine is now accessible in all 15 countries available on the Oracle Cloud Marketplace, and it will be priced in the respective local currencies. This development marks a significant step towards enhancing global access to this innovative time management solution.

Time Machine users can now enjoy the flexibility and cost-effectiveness of the PAYG model while benefiting from the scalability, high availability, and robust security features of the Oracle Cloud. This expansion simplifies the procurement process for organizations across 15 countries and eliminates currency conversion complexities.

## PRESS RELEASE

### **TIME MACHINE BYOL VERSION NOW AVAILABLE IN ORACLE GOVERNMENT CLOUD**

Solution-Soft is excited to announce the official launch of the Bring Your Own License (BYOL) version of Time Machine® in the Oracle Government Cloud Marketplaces, including the US Government, US Department of Defense, and UK Government cloud marketplace. This strategic expansion aims to cater to the specific needs of government entities, offering a reliable, secure and efficient approach to temporal testing.

Time Machine users within the Oracle Government Cloud Marketplaces can now leverage all of the advantages that the BYOL model offers. This version ensures compatibility with the Oracle Cloud infrastructure, providing users with high availability, scalability, and robust security features tailored to government standards.

## CASE STUDY

### **TIME MACHINE® HELPS LARGE U.K. ENERGY CUSTOMER ACHIEVE ON-TIME DELIVERY AND COST SAVINGS FOR ALL MAJOR SAP EXPANSIONS**

Using Time Machine, the large U.K. Energy customer was able to effectively test all pre- and post-production changes to the SAP system, and in addition leverage virtual dates to provide condensed time-based training to their end users. The use of Time Machine has given them the means to achieve a timely implementation of changes to their multiple SAP modules by significantly speeding up the usually lengthy test-fix-test cycle typical to deployments of SAP. Using Time Machine to condense test cycles combined with HP Itanium servers to

achieve consolidation and scalability, they have achieved a huge increase of ROI.

The following is a quote from their on-site SAP Basic Consultant.  
"Our client, one of the largest gas trading companies, is very happy with Time Machine. Without it, it would have been extremely cumbersome, resource intensive, and costly to do the same kind of SAP application testing and certification."

## PRESS RELEASE

### **SOLUTION-SOFT ELEVATES THE PRODUCT SUIT WITH FULL SUPPORT FOR IPv4/IPv6 DUAL STACK AND IPv6 ONLY ENVIRONMENTS REINFORCING FUTURE READY SOLUTIONS**

We proudly announce a significant stride in the Time Machine Product Suite. In addition to comprehensive support for IPv4/IPv6 dual-stack networking, our company now showcases robust compatibility with IPv6-only environments, underscoring its commitment to embracing the latest networking standards and technologies.

In today's rapidly evolving technological landscape, businesses worldwide are making a critical strategic shift towards adopting IPv4/IPv6 dual-stack and IPv6-only environments. This move is driven by several key factors: the imminent depletion of available IPv4 addresses, the need to future-proof networks, the promise of enhanced security features, ensuring global compatibility, meeting regulatory compliance, and achieving improved performance and efficiency. These pivotal technological advancements are essential for businesses striving to succeed and flourish within the ever-changing digital realm.

## PRESS RELEASE

# **SOLUTION-SOFT UNVEILS TIME MACHINE MANAGEMENT NODE FOR LINUX ON AWS MARKETPLACE, FEATURING PRE-INSTALLED SUPPLEMENTAL PRODUCTS FOR SEAMLESS VIRTUAL TIME MANAGEMENT**

SolutionSoft Systems Inc., a leading innovative time management solutions provider, proudly announces the launch of the Time Machine Management Node for Linux on the AWS Marketplace. Building upon the success of the Windows version, this release brings a robust Linux-based management node, addressing diverse user preferences and broadening accessibility across cloud environments.

The Time Machine Management Node for Linux comes preconfigured with the supplementary products from Solution-Soft's suite of products, including the Time Machine Floating License Server, Time Machine Enterprise Management Console, and Time Machine Sync Server. This node operates under a Bring Your Own License (BYOL) model, offering interested parties the opportunity to contact Solution-Soft directly for a trial license.

## A WORD FROM OUR CUSTOMERS

## **FROM THE GOVERNMENT SECTOR**

**"Thank you Time Machine for solving the glitch in a new implementation. For all new projects moving forward, Time Machine will be used as a standard (versus manually setting the clock) for our testing requirements, ultimately this will satisfy our clients' needs."**

*Platforms & Infrastructure Service Delivery Lead  
Accenture UK/Largest UK Government*

## **FROM THE BANKING & FINANCE SECTOR**

**"Thanks a lot Solution-Soft, for getting our urgent requirement done over the weekend and so late. Appreciate it!"**

*Manager Engineer  
National Australia Bank (NAB)*

## **FROM THE INSURANCE & HEALTHCARE SECTOR**

**“Without Time Machine, we would not be able to test quick enough to meet our critical deadlines. Time Machine reduced our test cycle by 3-4 times and reduced our testing costs by threefold.”**

*IT Project Manager  
Zurich*
